The screenshot shows a Mozilla Firefox browser window displaying the CEE PACKAGING website. The address bar shows the URL: [http://www.ceepackaging.com/2009/12/07/nordenia-trainee-wins-german-chamber-of-commerce-award/?utm\\_source=feedburner&utm\\_medium=email](http://www.ceepackaging.com/2009/12/07/nordenia-trainee-wins-german-chamber-of-commerce-award/?utm_source=feedburner&utm_medium=email). The website header features the CEE PACKAGING logo with the tagline "The Packaging Industry in Central and Eastern Europe" and a newsletter subscription prompt: "Subscribe to Ceepackaging Newsletter It's free, click here".

The main content area shows a breadcrumb trail: Home >> Corporate >> Nordenia trainee wins German chamber of commerce award >>. Below this is a sidebar with "ONLINE FEATURES" including links to Home page, Products, Technology, Environment, Profiles, Corporate, Investment, News from events, People, Countries, Events calendar, Analysis, Business Opportunities, Career Opportunities, Opinions, Award winning products, and Blog. The main article is titled "Corporate Nordenia trainee wins German chamber of commerce award". It includes a byline "By NEWS SYSTEM", publication date "Published: December 7th, 2009", and related tags "Germany". The article text describes how Germany's best trainee in the field of mechatronics, Alwin Jan Helweg, was honored in Berlin by the German Chambers of Industry and Commerce (IHK) for his 3-year vocational training at NORDENIA DEUTSCHLAND Gronau. It mentions his score of 99 out of 100 points and his "very good" grade, and notes that German Federal President Horst Köhler presided over the award ceremony at the "Palais am Funkturm". The article concludes by stating that the key to Mr. Helweg's success was hard work and a top-notch vocational training program, and that the work at NORDENIA is extremely multi-faceted due to the company's size, presenting new challenges in different fields.

At the bottom of the page, there is a "LATEST MAGAZINE" section featuring the CEE PACKAGING logo. The footer of the browser window shows the word "Fertig".

**3-year vocational training at NORDENIA DEUTSCHLAND Gronau (a program which normally takes 3.5 years). Mr. Helweg's score of 99 out of 100 points and his "very good" grade were the outstanding results of his examinations. German Federal President Horst Köhler presided over the award ceremonies at the "Palais am Funkturm", within the framework of the "National Performance Awards in IHK Professions" sponsored by the Chambers of Industry and Commerce.**

The key to Mr. Helweg's success: hard work and a top-notch vocational training program. "The work that goes on at NORDENIA is extremely multi-faceted. Due to the size of the company, there are always new challenges in different fields, such as equipment servicing and maintenance, and installation and dismantling of the machinery," explains 24-year-old Mr. Helweg. "It would not have been possible to acquire so much experience at any company." After finishing his training program six months early, Mr. Helweg has now started a Bachelor Degree Program in Mechatronics at the Osnabrück University of Applied Sciences.

His keen interest in the combination of electronic and mechanical engineering stood out during his training. "He was extremely interested in learning as much as possible. At the same time, however, he was always concentrated and kept cool under pressure as well. Furthermore, he's a great team player," said his co-workers and trainers at NORDENIA DEUTSCHLAND Gronau, praising Mr. Helweg's qualities. NORDENIA DEUTSCHLAND Gronau currently trains 50 young people in various vocational training professions.
